

MAHESH SHELAKE

+91 9503072201 — shelakemahesh024@gmail.com — LinkedIn — GitHub

PROFESSIONAL SUMMARY

Java Full Stack Developer with strong backend expertise in Spring Boot, RESTful APIs, and database design, with additional frontend experience in React.js. Experienced in building secure, scalable applications using JWT-based authentication. Seeking an entry-level role to contribute to high-performance web systems.

EDUCATION

Sinhgad College of Engineering (SPPU)

Bachelor of Engineering – Computer Engineering | CGPA: 6.91/10

Ligade Patil Jr College of Science

Higher Secondary Certificate (HSC) | 86.33%

Pune, Maharashtra

2022 – 2026

Karad, Maharashtra

2021 – 2022

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Spring Boot, Spring Security, Hibernate/JPA, RESTful API Design

Databases: MySQL, MongoDB, PostgreSQL

Tools & Platforms: Git, GitHub, IntelliJ IDEA, Postman

Concepts: Object-Oriented Programming, DBMS, RESTful APIs, Client-Server Architecture

PROJECTS

NexusHR (HR Management Platform) | React.js, Java, Spring Boot, MySQL | Live | GitHub

- Developed a full-stack enterprise HR platform with modules for employee management, attendance tracking, leave management, payroll processing, and reporting.
- Implemented JWT-based authentication and role-based access control (RBAC) using Spring Security for secure access management.
- Designed RESTful APIs and optimized MySQL queries for efficient handling of large-scale organizational data.
- Built a responsive dashboard with modular UI components and real-time insights for HR operations.

E-commerce Web Application | React.js, Java, Spring Boot, MongoDB | Live | GitHub

- Built a scalable e-commerce platform with product catalog, shopping cart, and order management features.
- Implemented secure backend APIs for authentication, product management, and order processing.
- Designed modular architecture and optimized data handling for maintainability and scalability.
- Integrated frontend with backend services to deliver a seamless user experience.

Money Manager Web Application | React.js, Java, Spring Boot, PostgreSQL | Live | GitHub

- Developed a personal finance management system to track income, expenses, and financial records.
- Implemented full CRUD operations with categorized expense tracking and PostgreSQL-based persistence.
- Designed RESTful APIs ensuring efficient data handling and integration.
- Built a clean and responsive UI for improved user experience and financial insights.

INTERNSHIP

CUBAN IT PVT LTD

Java Developer Intern

Dec 2024 – Jan 2025

Pune, Maharashtra

- Built responsive and reusable UI components using React.js to improve user experience and maintainability.
- Integrated RESTful APIs into frontend modules to enable seamless communication between client-side interfaces and backend services.
- Applied core Java and object-oriented programming concepts such as inheritance, polymorphism, encapsulation, and abstraction.
